Thread	
Size	0-80
Spacing	Fine
Type	UNF
Fit	Unified Standard Class 3A
Direction	Right Hand
Socket Head Profile	Standard
Fastener Head Type	Socket
Drive Style	Hex
Length	5/16"
Head	
Diameter	0.096"
Height	0.06"
Threading	Fully Threaded
Tensile Strength	170,000 psi
Drive Size	3/64"
Hardness	Rockwell C37
Material	Black-Oxide Alloy Steel
Performance	High Strength
Screw Size Decimal Equivalent	0.06"
Specifications Met	ASTM A574
System of Measurement	Inch
Tip Type	Flat
Country of Origin	United States
DFARS Compliance	Specialty Metals Compliant (252.225-7009)
Export Control Classification Number (ECCN)	EAR99
REACH Compliance	Not Compliant
RoHS Compliance	RoHS 3 (2015/863/EU) Compliant
Schedule B Number	731815.9000
U.S.–Mexico–Canada Agreement (USMCA) Qualifying	Yes

Made of alloy steel, these screws are the standard for high-strength fastening. Use them in high-load applications such as dies, presses, and heavy equipment. The deep, six-point socket keeps the hex key from slipping out and damaging the drive.

Length is measured from under the head.

Black-Oxide Alloy Steel—Best for dry environments since moisture will cause these screws to rust. They have a dark, matte appearance.

The information in this 3-D model is provided for reference only.
